IDENTIFIERS	*Delaware

ABSTRACT

Numerous tables present data concerning student enrollment and state unit allotments in the Delaware public schools as of September 30, 1990. Part I of this report contains the unit allotments based on enrollment for the 20 individual school districts and the state as a whole. Part II contains elementary school and secondary school enrollment information for regular and special students. Data are arranged by grade, grade grouping, school, district, county, and state. Special education data are listed primarily by handicapping condition and educational level. Data, reflecting full-time equivalent students, are reported to two decimal places. The statewide enrollment for 1990 was 99,658 students; this represents a 1.9% increase over the September 1989 enrollment figure. (SLD)

R & E No. 91-8

SEPTEMBER 30th STUDENT ENROLLMENT AND UNIT ALLOTMENT REPORT 1990

This report is presented in two parts: Part I contains the Unit Allotment information for September 30, 1990. Statewide, the Division I units are 5,853, and Division II units are 6,685. Please review the notes relating to units on page 8. These notes assist the reader by listing the units and other related information for special education schools and for certain vocational education programs.

Part II of the report contains the enrollment information for regular and special students. The regular enrollment data are presented by grade, grade grouping, school, district, county and state. Additionally, it should be noted, elementary information pertains to pre-kindergarten through grade 6 and secondary refers to grade 7 through grade 12. Special Education data are listed primarily by handicapped condition and also by educational level, school, district, county and state.

A number of students spend a portion of the school day in special education programs, and the remainder of the school day in the regular school program. Therefore, enrollment data are reported to two decimal places and reflect the number of full-time equivalent (FTE) students. Pages 28-29 of the report show that the statewide enrollment for 1990 is 99,658 students. The amount represents a 1.9% increase over the September 30, 1989 enrollment figure.
